

WABCO iABS Kits provided by Sealco are identified with an alphanumeric part number. The individual numbers or letters, along with their positions & spaces, explain which components are in the Kits. The matrix below & the iABS System Kit Maker on our website allow you to construct a Kit for your specific application.

As an example, the individual numbers &/or letters in our ABS Kit # **I21 2 10 FS** would relate to and be explained by the columns below.
